

The Hillside Cemetery Association

1401 Woodland Avenue, P.O. Box 360

Scotch Plains, New Jersey 07076

www.hillsidecemetery.com

The plants listed below have been found to be non-preferred, in varying degrees, by deer. This does not mean that deer will not feed on them. If natural or other food sources are available or abundant deer will probably overlook these plants. This listing is not a guarantee and you are not limited to only these plants. **Please contact the office prior to performing any work on a lot or grave.**

Bulbs

Autumn Crocus
Crocus
Common Snowdrop
Grape Hyacinth
Narcissus, Daffodils and Jonquils
Lily of the Valley

Perennials

Dwarf Asters
Caladium
Bleeding Heart
Dianthus
Violets

Annuals

Snapdragon
Petunias
French Marigolds
Flowering Vinca
Lantana (needs full sun)

To assist with your flower planting, the Cemetery can prepare a planting bed in front of any upright monument on a lot or grave. The planting bed would be filled with topsoil and covered with mulch. Please contact the Cemetery office for the applicable charge. The Cemetery can also power wash monuments and markers, remove existing overgrown shrubs and then fill and seed the area; as well as plant shrubs - contact the office for the applicable charges.

Deer Favorites and Occasional Favorites

Hosta	Geraniums	Pansy	Carnations	Liriope
Gladioli	Hydrangea	Roses	Coneflower	Coreopsis
Chrysanthemum	Impatiens	Violets	Zinnia	
Lilies	Tulips	Most Bulbs	Begonias	

The squirrels, rabbits and skunks have been known to dig up bulbs. We also have Canada geese and wild turkeys on the property that may, from time to time, walk over or through your flowers. Updated 6-13-2016
