The Cemetery requires that foundations for all monuments and markers be provided and constructed by the Cemetery. Unless otherwise specified below, the foundation charge is based on the surface area of the marker or the base of the monument, calculated at the current rate of \$1.85 per square surface inch. This fee also includes a contribution to the Maintenance & Preservation Fund, as mandated by New Jersey State law. The monument dealer chosen by the family must submit the foundation charge along with the Cemetery's required *Order for Monumental Work Permit* before placing an order for the monument or marker.
